**10-21** Police Phone  
Power Up Your Police Phone

**Get answered faster and improve your communications workflow while on patrol.**

Our engineers are working on some exciting new features that we will be releasing to individual officers for a small monthly fee. Users will be able to subscribe to new features within the app upon release, so stay tuned!

**Better Answer Rates**

Let citizens know why you are calling with Follow Up so they know why they need to call back.

**Greater Trust**

Improve community relations with messaging and Caller ID that identifies you as Law Enforcement—not spam.

**Less Guesswork**

Save time searching for numbers with improved Call History and Heads Up caller ID.

Law Enforcement's favorite app just got **better**.

 **Follow Up**

If your call gets declined or goes to voicemail, Follow Up will send a text that identifies you as law enforcement, giving citizens an easy way to request a call back.

 **Heads Up**

See who is calling you before you pick up! If your citizen's caller ID data is available, it will display when the call comes in.

 **Call History**

10-21 Police Phone Premium gives you access to your full call history from date of upgrade. Look back through your entire call log to verify contact with citizens or access numbers you would have lost.

 **Verified by Callyo**

Prevent citizens from assuming your call is spam with Law Enforcement Caller ID. Officers also have the option to turn ID off or on as they see fit.
