

# 10-21 Video

Turn your phone into a live streaming lifesaver with overt & covert recording.

Whether your department hasn't yet adopted standalone cameras, or you're looking to record video at a moment's notice, 10-21 Video adds live streaming to any police officer's tool belt.

Available for iOS, Android, and Sonim Phones. Sonim users can take advantage of added functionality that allows you to go live instantly at the touch of a button.

-  Use your existing phone
-  Live stream to your entire squad
-  Conceal screen for covert operations
-  Integrates with Sonim mobile solutions

## Never write a report from memory again.

**Incident Reporting** With 10-21 Video, you can use live recordings to document incident reports accurately and without bias.

**Field Interviews** Use 10-21 Video to record last-minute, on-the-spot interviews from witnesses at the accident or crime scene.

**Dashcam for Patrol** When out on patrol, set up your mobile device on the dashboard of your car to record any incidents on the road.

**Operations Training** Use your recordings of live police-citizen interactions to train officers on how to best handle specific scenarios.

**Officer Safety** Increase on the job safety by allowing your partner, team, and/or commanding officer to see exactly where you are and what is going on at the scene with live broadcast.

**Conceal Mode** Broadcast your surroundings covertly by using 10-21 Video in Conceal Mode to hide your screen. Get full video surveillance for your cover team without alerting others that you are recording.

### Introducing 10-21 Flight!

Live stream aerial footage with the lowest latency on the market to any officer with a smartphone!

\*Requires a minimum of 6 channels at \$29/month for non-Callyo customers and 4 channels for existing Callyo customers.
