Work your way with highly configurable protocols and workflow from **first medical contact through every stage of care.**

Effective Value for EMS, HOSPITALS & MIH/CP

- 1 Minimize time-to-treatment with patient information, notifications & tracking.
- 2 **47%** increased cost savings to the facility with improved call handling.
- 3 Prevent unnecessary transports or hospital readmissions by **30%**.
- 4 **15%** reduced ED overcrowding.
- 5 Remote patient monitoring savings of **11%** in costs.
- 6 EMS frequent user decrease of **36%** with recorded refusals and dispute resolutions.
- 7 **30% +** less false lab activations with 24/7 virtual medical consults.
- 8 Improve patient care and satisfaction with feedback and benchmarking.

Consolidate & Record your Radio & Phone Calls, EKG's, Forms, Vitals, Multi-Media & More for your Training, Q/A & Reporting.
Configure your own buttons and operations in 1-place to streamline your different teams workflow & protocols

With 500+ systems nationwide, handling 15,000+ calls daily, the GD's Solutions are a trusted leader since the 1990's with the core purpose of **improving the health and well-being of the public at large by providing responsive innovation for public safety and care providers.**

GD's e-Bridge is a feature rich, secure and configurable app that enables effective communications & secure sharing between responders and healthcare teams.

GD e-Bridge is the FirstNet Listed Mobile App for:

- Information
- Documentation
- Communication
- Telehealth

You only need 1-app
